

15 LIFE ON LAND

15.3.2

Monitoring IUCN and other conservation species (policies)

Have a policy to identify, monitor and protect any IUCN Red Listed species and national conservation list species with habits in areas affected by the operation of your university

- 本校針對校園與林場植物，進行植物種類之調查，建立植物名錄。本校與林場共有402種植物，其中IUCN列為瀕危(EN)的植物共為15種，極危(CR)的植物有8種。
- The university conducts surveys on the types of plants on the campus and forest field to compile a list of plant species. The university and its forest area have a total of 402 plant species, among which 15 are listed as Endangered (EN) and 8 as Critically Endangered (CR) by the IUCN.
